Are You Set For Winter?

the winter motorist has had his car set up for winter driving. Are you as good cars as the important things which you are responsible for your body?

Since "human engines" of ours are infinitely more important than cars ever built, and their smooth running depends largely on the advice of the homemaker. Miss Levis, Nutritionist for the Economics Division of the Al-

happiness, our ability to work, length of our life, depends to a large extent on the food we provide our "engines." Keep your body in good running order by the avoidance of rheumatism, colds and other common winter ailments. Know what foods to eat for health. For information write to your District Home Economist, or to the Home Economics Service of the Alberta Department of Agriculture, at Edmonton.
